

**UNIVERSITI KUALA LUMPUR
BUSINESS SCHOOL**

**FINAL EXAMINATION
JULY 2024 SEMESTER**

COURSE CODE	: EBB30703
COURSE NAME	: CORPORATE FINANCE
PROGRAMME NAME	: BACHELOR OF BUSINESS ADMINISTRATION (HONS) IN ISLAMIC FINANCE
DATE	: 24 SEPTEMBER 2024
TIME	: 9.00 AM – 12.00 PM
DURATION	: 3 HOURS

INSTRUCTIONS TO CANDIDATES

1. Please **CAREFULLY** read the instructions given in the question paper.
 2. This question paper has information printed on both sides of the paper.
 3. This question paper consists of **FIVE (5)** questions.
 4. Answer **ALL** questions.
 5. Please write your answers on the answer booklet provided.
 6. All questions must be answered in **English** (any other language is not allowed).
 7. **This question paper must not be removed from the examination hall.**
 8. Present and future values tables and formulas has been appended for your reference.
-

THERE ARE ELEVEN (11) PAGES OF QUESTIONS, INCLUDING THIS PAGE.

INSTRUCTION: Answer ALL questions.

Please use the answer booklet provided.

Question 1

- (a) Lahey Industries has outstanding a RM 1,000 par-value bond with an 8% coupon interest rate. The bond has 12 years remaining to its maturity date. If interest is paid annually, find the value of the bond when the required return is (A) 7%, (B) 8%, and (C) 10%. Indicate for each case in part a whether the bond is selling at a discount, at a premium, or at its par value. (4 marks)
- (b) Victoria Robb is considering purchasing the common stock of Warren Industries, a rapidly growing boat manufacturer. She finds that the firm's most recent (2012) annual dividend payment was RM 1.50 per share. Victoria estimates that these dividends will increase at a 10% annual rate, g_1 , over the next 3 years (2013, 2014, and 2015) because of the introduction of a hot new boat. At the end of the 3 years (the end of 2015), she expects the firm's mature product line to result in a slowing of the dividend growth rate to 5% per year, g_2 , for the foreseeable future. Victoria's required return, r_s , is 15%. To estimate the current value of Warren's common stock. (6 marks)
- (c) The Cute Corporation has announced a rights offer to raise RM 35 million for a new journal, the Journal of Financial Excess. This journal will review potential articles after the author pays a nonrefundable reviewing fee of RM 5,000 per page. The stock currently sells for RM 53 per share, and there are 3.9 million shares outstanding.
- i. If the subscription price is set at RM 47 per share, how many shares must be sold? (2 marks)
 - ii. How many rights will it take to buy one share? (2 marks)
 - iii. What is the ex-rights price? (4 marks)
 - iv. What is the value of a right? (2 marks)

[TOTAL MARKS: 20 MARKS]

Question 2

Birdie Golf, Inc., has been in merger talks with Hybrid Golf Company for the past six months. After several rounds of negotiations, the offer under discussion is a cash offer of RM185 million for Hybrid Golf. Both companies have niche markets in the golf club industry, and both believe that a merger will result in synergies due to economies of scale in manufacturing and marketing, as well as significant savings in general and administrative expenses.

Bryce Bichon, the financial officer for Birdie, has been instrumental in the merger negotiations. Bryce has prepared the following pro forma financial statements for Hybrid Golf assuming the merger takes place.

Table: The financial statements include all synergistic benefits from the merger.

	2019 RM'000	2020 RM'000	2021 RM'000	2022 RM'000	2023 RM'000
Sales	330,000	375,000	415,000	445,000	495,000
Production costs	231,000	262,500	290,500	311,500	346,500
Other expenses	33,000	38,000	41,000	45,000	49,000
Depreciation	27,000	31,000	33,000	36,000	36,000
EBIT	39,000	43,500	50,500	52,500	63,500
Interest	7,500	9,000	10,000	10,500	11,000
Taxable income	31,500	34,500	40,500	42,000	52,500
Taxes (21%)	6,615	7,245	8,505	8,820	11,025
Net income	24,885	27,255	31,995	33,180	41,475
Additions to retained earnings	0	16,000	19,000	21,000	25,000

If Birdie Golf buys Hybrid Golf, an immediate dividend of RM 55 million would be paid from Hybrid Golf to Birdie. Stock in Birdie Golf currently sells for RM 87 per share, and the company has 18 million shares of stock outstanding. Hybrid Golf has 8 million shares of stock outstanding. Both companies can borrow at an 8 percent interest rate. Bryce believes the current cost of capital for Birdie Golf is 11 percent. The cost of capital for Hybrid Golf is 12.4 percent, and the cost of equity is 16.9 percent. In five years, the value of Hybrid Golf is expected to be RM 235 million.

Bryce has asked you to analyze the financial aspects of the potential merger. Specifically, he has asked you to answer the following questions.

- (a) Suppose Hybrid shareholders will agree to a merger price of RM 23.13 per share. Should Birdie proceed with the merger?
(10 marks)
- (b) Explain briefly **THREE (3)** type of acquisitions and provide an example for each type of acquisition.
(6 marks)
- (c) Discuss any **TWO (2)** sources of synergy.
(4 marks)

[TOTAL MARKS: 20 MARKS]

Question 3

- (a) Assume that DCT Berhad's net income during the year is RM 150 million. The company statement's of financial position before cash dividends is paid is shown below:

Common stock:	RM
Par (20 million outstanding shares @ RM 1 share)	20,000,000
Paid-in capital	100,000
Retained earnings	200,000
Total	320,000,000

- i. For that year, the Board of Directors declared a cash dividend of RM 0.50 per share. Calculate the total cash dividend paid out for that year.
(2 marks)
- ii. If the RM 150 million profits earned for that year, show DCT Berhad's statement of financial position after the cash dividend payments.
(4 marks)
- (b) Dividends come in several different forms. Describe **TWO (2)** types of dividend.
(2 marks)
- (c) Describe the process of declaring and paying a cash dividend.
(6 marks)
- (d) Describe **THREE (3)** reasons for a low-dividend-payout policy.
(6 marks)

[TOTAL MARKS: 20 MARKS]

Question 4

Stephenson Real Estate Company was founded 25 years ago by the current CEO, Robert Stephenson. The company purchases real estate, including land and buildings, and rents the property to tenants. The company has shown a profit every year for the past 18 years, and the shareholders are satisfied with the company's management. Prior to founding Stephenson Real Estate, Robert was the founder and CEO of a failed alpaca farming operation. The resulting bankruptcy made him extremely averse to debt financing. As a result, the company is entirely equity financed, with 8 million shares of common stock outstanding. The stock currently trades at \$37.80 per share. Stephenson is evaluating a plan to purchase a huge tract of land in the southeastern United States for \$85 million. The land will subsequently be leased to tenant farmers. This purchase is expected to increase Stephenson's annual pretax earnings by \$14.125 million in perpetuity. Jennifer Weyand, the company's new CFO, has been put in charge of the project. Jennifer has determined that the company's current cost of capital is 10.2 percent. She feels that the company would be more valuable if it included debt in its capital structure, so she is evaluating whether the company should issue debt to entirely finance the project. Based on some conversations with investment banks, she thinks that the company can issue bonds at par value with a 6 percent coupon rate. From her analysis, she also believes that a capital structure in the range of 70 percent equity/30 percent debt would be optimal. If the company goes beyond 30 percent debt, its bonds would carry a lower rating and a much higher coupon because the possibility of financial distress and the associated costs would rise sharply. Stephenson has a 23 percent corporate tax rate.

- (a) If Stephenson wishes to maximize its total market value, would you recommend that it issue debt or equity to finance the land purchase? Explain.
(6 marks)
- (b) Under the pecking-order theory, what is the order in which firms will obtain financing?
(4 marks)
- (c) What are some differences in implications of the static and pecking-order theories?
(5 marks)
- (d) List **FIVE (5)** important factors in making capital structure decisions.
(5 marks)

[TOTAL MARK: 20 MARKS]

Question 5

Use the option quote information shown here to answer the questions that follow:

Option and NY close	Expiration	Strike Price (RM)	Calls		Puts	
			Volume	Last (RM)	Volume	Last (RM)
Microsoft						
	Feb	38	85	2.35	37	0.24
	Mar	38	61	3.15	22	0.93
	May	38	22	4.87	11	2.44
	Aug	38	3	6.15	3	3.56

- (a) The stock is currently selling RM 40. Are the call options in the money?
(2 marks)
- (b) The stock is currently selling RM 40. Are the put options in the money?
(2 marks)
- (c) Suppose you buy 10 contracts of the February 38 call option. Calculate the total cost.
(4 marks)
- (d) Based on (c), calculate net payoff if Microsoft stock is selling for RM 43 per share on the expiration date.
(4 marks)
- (e) Suppose you sell 10 of the August 38 put contracts. Calculate the breakeven price.
(4 marks)
- (f) What is the difference between an American option and a European option?
(4 marks)

[TOTAL MARK: 20 MARKS]

END OF EXAMINATION PAPER

FORMULA

- Depreciation = [Cost - Salvage Value] / n
- DPR = (Dividend / Net Income) x 100
- $PV = PMT \times \frac{[1 - (\frac{1}{(1+r)^n})]}{r}$
- $FVA = PMT \left(\frac{(1+r)^n - 1}{r} \right)$
- $E(R) = \sum (P \times R)$
- $\sigma = \sqrt{\sum P (R - E(R))^2}$
- $COV_{a,b} = \sum [r_a - E(R)_a] (r_b - E(R)_b) (P)$
- $Corr_{a,b} = COV_{a,b} / (\sigma_a)(\sigma_b)$
- $E(R)_p = w_{xx}E(R)_{xx} + w_{yy}E(R)_{yy}$
- $Var(R_p) = (W_a \times SD_a)^2 + (W_b \times SD_b)^2 + 2(W_a W_b Corr_{a,b} SD_a SD_b)$
- $SD = \sqrt{VAR(R_p)}$
- WACC = Sum of ([w] x cost of capital)
- NPV = sum of PV – CF0
- $K_i = YTM$
- $K_d = k_i(1 - \text{tax})$
- $K_{ps} = D / (MP - FC)$
- $K_{Re} = [D_1 / (MP)] + g$
- $K_{ncs} = [D_1 / (MP - FC)] + g$
- $Vc/s = \text{Dividend} / k$
- $Vc/s = D_1 / (k - g)$
- $Vc/s = [D_1 / (1+K)^n] + \dots + [D_n / \{ (k-g)(1+k) \}]$
