

**UNIVERSITI KUALA LUMPUR
BUSINESS SCHOOL**

**FINAL EXAMINATION
OCTOBER 2024 SEMESTER**

COURSE CODE	: EAB21503
COURSE NAME	: PRINCIPLES OF FINANCE
PROGRAMME NAME	: BACHELOR IN ACCOUNTING (HONS)
DATE	: 13 FEBRUARY 2025
TIME	: 2.00 PM – 5.00 PM
DURATION	: 3 HOURS

INSTRUCTIONS TO CANDIDATES

1. Please **CAREFULLY** read the instructions given in the question paper.
2. This question paper has information printed on both sides of the paper.
3. This question paper consists of **FOUR (4) Questions**.
4. Answer **ALL** questions.
5. Please write your answers on the answer booklet provided.
6. All questions must be answered in **English** (any other language is not allowed).
7. This question paper must not be removed from the examination hall.
8. Compound interest table and formula has been appended for your reference.

THERE ARE ELEVEN (11) PAGES OF QUESTIONS, INCLUDING THIS PAGE.

INSTRUCTION: Answer ALL questions.

Please use the answer booklet provided.

Question 1

Hao Ah You is one of the owners of Sofa So Good Furniture. He currently holds a position as the Chief Finance Officer (CFO) of the company. Their main concept of furniture is basically inspired by modern industrial concept and most of their clients are corporate company such as TELELINK Corp, MINUS Highway, BERSATU Corp and many others resort and hotel. The company is awarded the Top Brand Award in the year 2022.

Even though they are being rewarded as such, like any other furniture industry, they are still experiencing seasonal sales. This could be difficult to sustain cash if cash planning and budgeting are not managed properly. As the CFO, Mr. Hao, needs to forecast their cash flow and if the firm are likely to need some additional cash, they have got to be ready in advance for rainy days.

Mr. Hao has several options that they could explore to improve the cash position and profit. The three options that the management could consider are establishing a business line of credit from the bank, extending supplier payments during slow periods, and improving the account receivable policies. After some meeting with the rest of the partners, they agreed to proceed with the line of credit option. Mr. Hao requests his subordinates to estimate the sales forecast from February until June.

Table 1: Sales Forecast for Sofa So Good Furniture

Month	Sales Forecast (RM)
February	68,300
March	82,600
April	86,900
May	73,700
June	71,600
July	68,300

Credit department terms on the is based on the following payment policy:

- 10 percent of the sales amount should be paid in cash.
- 40 percent of the sales amount should be paid 1 month after the sales commerce.

- The remaining balance must be paid 2 months after the sales.

In order to speed up the production process, the procurement department will purchase the raw material 1 month before the sales. The purchase will be 60 percent from sales and shall be paid to the suppliers 1 month after the purchase.

Other budgeted expenses are as follows:

Table 1: Budget Expenses for Sofa So Good Furniture

	April RM	May RM	June RM
Payroll	17,800	16,400	14,000
Utilities	1,330	1,200	1,050
Other operating costs	7,500	7,000	6,600

Additional information

- Payroll, utilities, and other operating costs are paid in the month incurred.
- Rent is paid once at the end of every quarter amounted to RM 3,000.
- The 3-month Takaful is paid for at the beginning of every quarter that cost RM 2,500.
- Interest on long term loan is paid at RM 700 in June.
- In May, sell off some equipment and estimate cash receipts of RM 9,200 and plan to buy other equipment in May worth RM 23,000.
- A semi – annual bonus of RM 9,500 is scheduled to be paid in June.
- Income tax payment of RM 3,000 is due in June.

You are required to prepare the restaurant's cash budget for the months of April, May, and June. The beginning cash balance for April is expected to be RM 30,000 and a minimum balance of RM 20,000 should be maintained throughout the cash budget period. Additional borrowing is necessary to maintain that minimum balance. Interest on the borrowed funds equals 12 percent per annum, or 1 percent per month, and is paid in the month following the one in which funds are borrowed. Working under Mr. Hao Ah You as an internship student, you are required to prepare a cash budget for the second quarter of the year.

[TOTAL MARK: 30 MARKS]

Question 2

PPZ Investment Malaysia is a private wing for Pusat Pengurusan Zakat (PPZ) Malaysia. The main objective of its establishment is to handle and manage zakat money. The fund that being allocated to them will be channel as a startup fund to any Asnaf that want to start their own business under Asnaf Entrepreneur Program (AEP). The maximum amount of grant that can be applied by any applicant is up to RM 100,000. You as one of them team member in the AEP has to evaluate project proposal that being handed to you. Currently there are 2 projects being propose by Encik Kamal.

Encik Kamal is requesting for RM 100,000 from AEP grant to startup either one of his projects. The first project is to plant a Kantan tree, and once the Kantan tree is mature enough, he will pick up the Kantan's flower and sell it to the suppliers. Project Kantan is expected to generate RM 50,000 per year for 3 years. The second project is Project Ginger. Similar modus operandi as Project Kantan, Project Ginger is likely to bring in after-tax cash inflows of RM 20,000 for the first year, RM 30,000 for the second year, RM 40,000 during the third year, and RM 50,000 for year four.

(a) You are requested to evaluate both projects and decide etither to approved or not Encik Kamal application.

i. Payback period

(3 marks)

ii. Net present value

(6 marks)

iii. Internal rate of return for project that obtain the highest NPV only (use interpolation technique).

(6 marks)

(b) Based on your finding above, you have to present to the board members and Encik Kamal the suitable project for him. Justify your answer with an appropriate justification.

(10 marks)

[TOTAL MARK: 25 MARKS]

Question 3

Assume that you just recently graduated with a major in finance. You just landed a job as a financial planner with one of well – known investment bank, Malaysian Development Industrial Bank (MDIB). You have been placed as a financial advisor to handle High Net Worth Individual (HNWI) customers before can be placed at a higher level.

Your first assignment is to handle the Ms. Bao Chi Ken, a 55-year-old woman and self – who running a security business, Waja Force. She wanted to invest RM 1 million with your bank and has instructed you to plan for a 1-year holding period. Further, your immediate supervisor has restricted you to the investment alternatives in the following table, shown with their probabilities and associated outcomes for three different financial instruments.

Table 3: Probability Distribution and Rate of Return.

State of Economy	Probability	Rate of Return		
		SC	AM	MER
Strong	0.25	0.50	0.40	0.30
Normal	0.50	0.12	0.12	0.12
Weak	0.25	– 0.30	– 0.20	– 0.10

MDIB's forecasting staff has developed probability estimates for the state of economy; and its security analysis has developed a sophisticated computer program, which was used to estimate the rate of return on each alternative under each state of economy. Your bank has a guideline policy on the risk tolerance level for different kinds of age. Ms. Bao Chi Ken demands a 10 percent return or more with an adequate level of risk.

Table 4: Risk Tolerance Level (RTL) According to Age

Age	Risk Tolerance Level	Accepted Risk Level (%)
27 – 36	High	> 31
37 – 46	Medium	Between 15 to 30
47 – 70	Low	< 15

Using all the information given, fulfill Ms. Bao Chi Ken demand by suggesting the appropriate stock for Ms. Bao Kern Ching and defend your suggestion by preparing necessary calculation.

(25 marks)

[TOTAL MARK: 25 MARKS]

Question 4

Armaf Inc. is evaluating its cost of capital under alternative financing arrangements. It expects to be able to issue a new redeemable bond selling at RM 940 with par value of RM 1,000. The bond is at 8% coupon rate and has a maturity of 20 years. Armaf also want to issue new preferred stock with a RM 2.00 per share dividend at RM 30 a share. The common stock is currently selling for RM 25 a share. It expects to pay a dividend of RM 1.50 per share next year. Armaf expects dividends to grow at a rate of 5% per year and Armaf's tax rate is 40%. Mr. Malik, Head of Finance section had come out with two financing arrangement. The arrangement as follow:

Table 3: Financing arrangement and percentage of new capital raised

Financing Arrangement	Percentage of New Capital Raised		
	Debt	Preferred Stock	Common Stock
1	30%	10%	60%
2	50%	25%	25%

- (a) You has been asked to calculate the cost of capital for each arrangement. (Assume there is no flotation cost) (12 marks)
- (b) If Armaf Inc. only manage to cater its cost of capital up to 7.5%, determine the best financing arrangement for Armaf. (2 marks)
- (c) Explain **THREE (3)** the importance of cost of capital to an organization. (6 marks)

[TOTAL MARK: 20 MARKS]

END OF QUESTION PAPER

FORMULA

- Depreciation = [Cost - Salvage Value] / n
- DPR = (Dividend / Net Income) x 100
- $PV = PMT \times \frac{[1 - (\frac{1}{(1+r)^n})]}{r}$
- $FVA = PMT \left(\frac{(1+r)^n - 1}{r} \right)$
- $E(R) = \sum (P \times R)$
- $\sigma = \sqrt{\sum P (R - E(R))^2}$
- $CV = \sigma/r$
- $COV_{XX,YY} = \sum (r_{XXi} - E(R)_{XX}) (r_{YYi} - E(R)_{YY}) (P_i)$
- $E(R)_p = w_{XX}E(R)_{XX} + w_{YY}E(R)_{YY}$
- $P_{XX,YY} = COV_{XX,YY} / (\sigma_{XX})(\sigma_{YY})$
- $D_1 = D_0 (1 + g)$
- $V_B = CP (PVIFA) + MV (PVIF)$
- $WACC = \text{Sum of } ([w] \times \text{cost of capital})$
- $NPV = \text{sum of } PV - CF_0$
- $PBP = [(n-1)] + [(IO - \text{sum of cash flow before } n) / (\text{cash flow of the year } n)]$
- $V^*B = \Delta V + VB$
- $V_{AB} = V_A + (V^*B - \text{cost of acqn})$
- $V_{AB} = V_A + V_B + \Delta V$
- $K_i = YTM$
- $K_d = k_i(1 - \text{tax})$
- $K_{ps} = D / (MP - FC)$
- $K_{Re} = [D_1 / (MP)] + g$
- $K_{ncs} = [D_1 / (MP - FC)] + g$
- $V_c/s = \text{Dividend} / k$
- $V_c/s = D_1/(k-g)$
- $V_c/s = [D_1 / (1+K)^n] + \dots + [D_n / \{ (k-g)(1+k) \}]$
