

**UNIVERSITI KUALA LUMPUR
BUSINESS SCHOOL**

**FINAL EXAMINATION
MARCH 2025 SEMESTER**

COURSE CODE : EAB21503
COURSE NAME : PRINCIPLES OF FINANCE
PROGRAMME NAME : BACHELOR IN ACCOUNTING (HONS)
DATE : 22 JUNE 2025
TIME : 9.00 AM – 12.00 PM
DURATION : 3 HOURS

INSTRUCTIONS TO CANDIDATES

1. Please **CAREFULLY** read the instructions given in the question paper.
2. This question paper has information printed on both sides of the paper.
3. This question paper consists of **ONE (1) Section**.
4. There are **FIVE (5) Questions**, answer **FOUR (4) Questions ONLY**.
5. Please write your answers on the answer booklet provided.
6. All questions must be answered in **English** (any other language is not allowed).
7. This question paper must not be removed from the examination hall.
8. Compound interest table and formula have been appended for your references.

THERE ARE THIRTEEN (13) PAGES OF QUESTIONS, EXCLUDING THIS PAGE.

SECTION A: (TOTAL 100 MARKS)**INSTRUCTION: Answer FOUR (4) question ONLY.****Please use the answer booklet provided.****Question 1**

Al Eksen recently leased space in the South Klang Gate Mall and opened a new business, No One Come (NOC). A furniture business for the elite. Business has been good, but Al Eksen has frequently run out of cash. This has necessitated late payment on certain orders, which is beginning to cause a problem with suppliers. Mr Ram, the owner of Al Eksen plans to borrow from the bank to have cash ready as needed, but first he needs a forecast of just how much she should borrow. Accordingly, she has asked you to prepare a cash budget for the critical period around raya, when needs will be especially high.

The purchase is 50 percent from the sales and Mr Ram usually made purchases a month before the sale occurs. Meanwhile for the payment for the purchase is made a month after the purchases. The staff salary is RM 1,200 per person for each month and currently they have 5 staffs. Meanwhile, Mr Ram is being charged RM 1,500 per month for the rent. In addition, Mr Ram must make a tax payment consist of RM 4,500 at the end of each quarter. The current cash on hand (on 1st October) is RM 30,000, but Mr Ram agreed to maintain an minimum bank balance of RM 15,000 – this is his target cash balance. The estimate sales as follows

Month	Expected Sales (RM)
August	10,000
September 2025	20,000
October 2025	30,000
November 2025	40,000
December 2025	50,000
January 2026	40,000

As for the collection of the credit sales is based on the following policy:

- 60% : 1 – month after sales
- 40% : 2 – months after sales

Other budgeted expenses are as follows:

Items	October (RM)	November (RM)	December (RM)
Utilities	1,000	1000	1000
Insurance	600	600	600
Depreciation (equipments)	6,000	6,000	6,000
Interest	800	800	800

Additional information

- Rent, utilities, other operating costs, and interest are paid in the month incurred
- Loan for equipments are paid at RM 2,000 every months
- Semiannual bonus of RM 500 for each staff is scheduled to be paid in December.

Additional borrowing necessary to maintain that minimum balance. Interest on the borrowed funds equals 12 percent per annum, or 1 percent per month, and is paid in the month following the one in which funds are borrowed. You are required to prepare the restaurants cash budget for the end of quarter 2025.

(25 MARKS)

Question 2

ASUS is one of the world's leading personal technology companies, producing innovative PCs and mobile internet devices. A global Fortune 500 company, ASUS is the world's largest PC vendor and fourth largest smartphone company.

ASUS brand came into existence only in 1989 in Taiwan. Today, ASUS is a personal technology company with more than 54,000 employees (including joint ventures) in more than 60 countries serving customers in more than 160 countries. In 1995, ASUS has become the world's leading motherboard maker. ASUS has grown faster than the market for more than four years while producing whether a PC, smartphone, tablet, server, workstation or storage, ASUS makes the products that customers need for what we call the "PC+ world." ASUS owns the greatest track record for innovation in the PC industry, consistently winning awards and receiving rave reviews.

ASUS remains committed to innovation and will continue to leverage our history of technological breakthroughs into new product categories that drive future growth. Innovation is how ASUS achieves competitive differentiation and drives new market opportunities, such as mobile Internet, digital home and cloud computing. Therefore, to produce more latest technology product ASUS need diversifying into a new product line. To diversify, the company needs to raise fund. The company plans to issue new bonds and ordinary shares to raise funds to invest in a new project costing RM 4,000,000.

The company's present debt and equity as at 31 December 2022 are as follows:

	RM
8% Bonds at par	6,600,000
Common shares at par	8,000,000
Preferred Share	400,000

The company information on the equity are as follows:

	Par Value (RM)	Dividend Payout (%)	Market Price (RM)
Common Share	1	50	10

The bonds (par value RM1,000 with 10 years' maturity) will be issued at RM 880. Floatation costs on issuance of these bonds are nil. As for the preferred share, the company pay a fixed dividend of RM 13 and currently price at RM 100. No floatation cost for preferred shares. The

company has just paid a dividend of RM0.50 per share to ordinary shareholders. The dividend is assumed to grow at a constant rate of 10% and the floatation cost on the issuance of ordinary shares is 5% of market price.

The corporate tax rate is 26%. Sami is a recent MBA graduate, has been hired by the company to finance Department. Sami had been asked by the Chief Finance Officer of the company to prepare a report that answers the following questions. Help and advice Sami's on the report.

- (a) You are required to help the Sami to determine the weighted average cost of capital (WACC) if the company plan to undertake the project and wanted to raise the capital using bond, common share and preferred share.
(12 marks)
- (b) Since your are new in the company, the CFO asked you to find out the important of WACC to the company. Justify to the CFO at least **TWO (2)** importants of WACC.
(6 marks)
- (c) The project is forecasted to generate a 6-year of cash flow amounted of RM 350,000 per year. Should the company undertake the project? Give your opinion on the matter. (Use the WACC that you calculated in question (c) as your discount rate).
(7 marks)

Question 3

CantikNyer Corporation, a leader in the beauty and skincare industry, has always prided itself on innovation and forward-thinking strategies. As part of their long-term growth plan, the company's financial advisory team has proposed exploring investment opportunities to diversify their portfolio and create additional revenue streams. Among the proposed options is a security KK and security BB, known for their potential to deliver varying rates of return. In their monthly department meeting, the Chief Financial Officer has presented the details of two potential investment; security KK and security BB and requested you as her subordinates to carefully analyse the probabilities associated with its potential returns. The detailed report showcasing the probability distribution of returns are as follows:

Security KK		Security BB	
Probability	Return	Probability	Return
0.10	4%	0.15	6%
0.20	5%	0.30	9%
0.30	10%	0.40	10%
0.40	25%	0.15	15%

- (a) Calculate the expected rate of return and the standard deviation on the investment of security KK and security BB.

(20 marks)

- (b) Help the CEO by suggesting the most suitable investment for CantikNyer. Justify your reasoning.

(5 marks)

Question 4

SQL is considering two proposals to overhaul its network infrastructure. The first one comes from PUAWEI which require a RM 20 million upfront investment and will generate RM 20 million for SQL for the next three years. Meanwhile, for the second bid it comes from SISCO. Under SISCO proposal, they requires a RM 100 million upfront investment and will generate RM 60 million each year for three years.

- (a) If the cost of capital for this investment is 12%, calculate the Net Present Value (NPV) for each proposal.
(6 marks)
- (b) SQL policy is only to accept the project if the payback period is lesser than 3 years. Find out which project have should the chosen by SQL.
(4 marks)
- (c) Compute the Internal Rate of Return (IRR) for both proposal by using interpolation techniques.
(10 marks)
- (d) Based on the findings above, which project should be SQL proceed with. Justify your answer.
(5 marks)

Question 5

Tak Nak and Tak Maw is planning to building up their own plantation business, Maw Tak Garden. Currently, what they have in mind is to plant Chilli and Cabbage. They estimate the cost needed to pursue their dream is RM 550,000. Currently they only have 10 percent from the cost needed in their saving account to cover up the capital. Tak Nak and Tak Maw decided to approach Guarantee Get Money (GGM) to finance the rest of needed capital. After reviewing their application and with their current financial position, Mr. En Tah Lee decided to give only 80 percent from the requested amount with 8 percent interest per annum with THREE (3) different repayment plans.

- Plan 1: Discounted Loan
 - Pay all of the interest (8% per year) and principal in one lump sum at the end of 5 years.
- Plan 2: Interest only Loan
 - Pay interest at the rate of 8% per year for 4 years and then a final payment of interest and principal at the end of the 5th year.
- Plan 3: Amortized Loan
 - Pay 5 equal payments at the end of each year inclusive of interest and part of the principal.

A bit confuse with all the repayment plan, they ask you to do some calculation and present to them the result.

- (a) Advise Tak Nak and Tak Maw the best repayment plan with appropriate justification and illustration.

(15 marks)

- (b) Tak Maw meet Mr En Tah Lee to choose the plan that being proposed by you. Meanwhile you and Tak Nak have a meeting with Koperasi Usahawan Berjaya Islam Selangor (KUBIS) to get the remaining capital for their business. Chief Financial Officer impress with Tak enthusiasm, he then agreed with 1 percent interest per annum but with a condition. Tak Nak have to repayment them back within 5 years. Compute the yearly payment they have to pay to KUBIS every year.

(4 marks)

- (c) Apart from borrowing money from the bank, **explain TWO (2)** benefits of issuing bond to Tak Nak and Tak Maw.

(6 marks)

END OF EXAMINATION PAPER

FORMULA

- Depreciation = [Cost Salvage Value] / n
- DPR = (Dividend / Net Income) x 100
- $PV = PMT \times \frac{1 - \left(\frac{1}{(1+r)^n}\right)}{r}$
- $FVA = PMT \left(\frac{(1+r)^n - 1}{r} \right)$
- $E(R) = \sum (P \times R)$
- $\sigma = \sqrt{\sum P (R - E(R))^2}$
- $CV = \sigma/r$
- $COV_{xx,yy} = \sum (r_{xxi} - E(R)_{xx}) (r_{yyi} - E(R)_{yy}) (P_i)$
- $E(R)_p = w_{xx}E(R)_{xx} + w_{yy}E(R)_{yy}$
- $P_{xx,yy} = COV_{xx,yy} / (\sigma_{xx})(\sigma_{yy})$
- $D_1 = D_0 (1 + g)$
- $V_B = CP (PVIFA) + MV (PVIF)$
- WACC = Sum of ([w] x cost of capital)
- NPV = sum of PV – CF₀
- $V^*B = \Delta V + VB$
- $V_{AB} = VA + (V^*B - \text{cost of acqn})$
- $V_{AB} = VA + VB + \Delta V$
- $K_i = YTM$
- $K_d = k_i(1 - \text{tax})$
- $K_{ps} = D / (MP - FC)$
- $K_{Re} = [D_1 / (MP)] + g$
- $K_{ncs} = [D_1 / (MP - FC)] + g$
- $V_{p/s} = \text{Dividend} / k$
- $V_{c/s} = D_1 / (k - g)$
