

# Producing global graduates

THE Universiti Kuala Lumpur Malaysian Institute of Marine Engineering Technology (UniKL-MIMET) strives to support the university's vision and mission to become a prime entrepreneurial technical university and to produce enterprising global technopreneurs through its Bachelor Of Maritime Operations (Hons) programme.

This programme would allow UniKL-MIMET, as a specialist institute for the maritime sector, to produce graduates who can venture into the non-engineering areas of the maritime industry.

It aims to produce graduates who can work in the maritime industry's sub-sectors such as shipping management, sea port operations, shipping and forwarding agencies, government law enforcement agencies and shipyard administration.

The courses offered in the programme are grouped into five sub-areas: Maritime Transport Management, Shipyard Operations, Maritime Law Enforcement, Business Management as well as Marine Technology and Ocean Sciences.

The development of such a programme would not be possible without the support of stakeholders and players in the maritime industry. Hence, an industrial panel has been set up to assist UniKL comprising representatives from sea ports, shipping companies, shipyards, government agencies and a senior academician from a reputable university.

The educational objective of the Bachelor of Maritime Operations (Hons) is to produce graduates who are knowledgeable,

UniKL-MIMET hopes to produce graduates who are knowledgeable, competent and innovative.

competent and innovative.

The programme is designed to produce graduates who are committed to the importance of lifelong learning and continuous improvement.

Graduates will have the opportunity to pursue a career in various fields such as maritime cargo analysts, port operator and management, coordinator freight services, sales operation coordinator, ship's officer maritime and logistics.

UniKL-MIMET also offers the Bachelor of Engineering Technology (Naval Architecture and Shipbuilding), Bachelor of Marine Engineering Technology and Bachelor of Engineering Technology (Offshore) with Honours.
