

THE NURSING PRACTICE PROCEDURE MANUAL (PART 2)

The Nursing Practice Procedure Manual (Part 2), written especially for nursing students and have been designed to support student nurses in clinical practice. It serves as a reference for nursing students during their clinical placement in general areas. This manual provides essential information over 32 nursing procedures covering the subjects of Pharmacology, Nutrition, Fluid and Electrolytes, Hemopoietic and Dermatology that includes six important parts in a procedure namely objectives; assessment; equipment, preparation, implementation and evaluation. This manual contains the skills and up-to-date practices commonly carried out in the hospital/healthcare settings that reflect quality, safe and cultural-sensitive nursing care.
