

A top-rated university

UNIVERSITI Kuala Lumpur (UniKL) was established since 2002 and is Malaysia's leading technical and entrepreneurial university. In September 2020, UniKL was listed in the 2021 Times Higher Education (THE) World University Rankings at 1,000+ and is among the top 10 Malaysian universities.

Currently, UniKL is ranked as one of Malaysia's Top Six universities in Business and Economics and places Top 10 in Computer Science and Engineering. Last December, the Ministry of Higher Education named UniKL as a five-star rated university through its Setara University Rating System. Setara employs a rigorous assessment methodology to rate an education institution's three core functions – teaching, research and services.

Factors and qualities such as academic staff aptitude, academic staff recognition, quality management system, financial sustainability, institutional reputation, adequacy and strength of academic staff, student satisfaction, graduate quality, internationalisation of academic programmes, programme recognition and others were assessed under this rating system.

Since its inception, UniKL's reputation and commitment to higher standards in education, student excellence and employability have not gone unnoticed.

UniKL was awarded Gold in the Putra Brand Awards 2020 for Education and Learning. The Putra Brand Awards recognises Malaysia's Most Valuable Brands and is awarded via consumer preference.

This award is testimony to UniKL being one of the universities of choice in Malaysia.

UniKL's primary aim is to provide an enriching graduate and postgraduate learning environment, which fulfils the academic and intellectual potential of its students.

It advocates a culture that strives for high education standards in the Higher Technical and Vocational Education and Training (HTVET) delivery system, emphasising hands-on technical skills and knowledge development.

With the concept of "One Institute, One Specialisation", UniKL at present has 12 campuses strategically located all over Peninsular Malaysia with its chancellery situated in the heart of Kuala Lumpur.

The diversity in specialisation within the university enables optimisation of resources, enhances teaching and learning activities as well as boosts profound research activities within the university.

UniKL is recognised for its global teaching standards and academic expertise. Its graduates possess the necessary skills to succeed in the local and global market as well as the knowledge and confidence to overcome any challenges that they might encounter.

UniKL aims to contribute to society through what it does best via excellent education, learning and research.

This methodology has earned UniKL the reputation as one of the top universities for graduate employability.

A 2019 Graduate Employability Rankings revealed that UniKL's Institutions occupy

UniKL's reputation and commitment to higher standards in education, student excellence and employability have not gone unnoticed.

nine of the top 20 positions among most employable graduates in the country with an average of 96% graduate employability.

Students at UniKL are part of an encouraging environment, which offers continuous support for students throughout their studies and beyond.

In tandem with the challenges of the globalisation era and to fulfil the current demand of the industry and job market, UniKL moulds its graduates with strong technological knowledge, astute technical and entrepreneurial skills as well as leadership

qualities with a towering personality.

Presently, UniKL boasts over 22,000 students and has produced more than 55,000 graduates who have established their careers or become successful entrepreneurs locally and globally.

Apply now for foundation, diploma and bachelor's degree programmes for the July/September intakes.
