

# Sailing ahead on excellence

UNIVERSITI Kuala Lumpur Malaysian Institute of Marine Engineering Technology (UniKL-Mimet) was established in 2004 in a collaboration between MARA and the Australian government, represented by International Training Australia.

It offers industry-specific programmes aimed at producing highly competent personnel for the marine and maritime industry.

The courses taught include ship design, ship construction and boatbuilding, and integrate theoretical teaching with practical application.

UniKL-Mimet is located in Lumut, a coastal town off Manjung, Perak. It is about 84km from the capital city of Ipoh and is the gateway to Pangkor Island.

Once a little known fishing town, it has since become the home base of the Royal Malaysian Navy and the site of the biggest naval shipbuilder in Malaysia – Boustead Naval Shipyard.

UniKL-Mimet is committed towards providing a conducive learning environment which encourages the development of technical competence, creativity and skills among students.

It aims to provide a learning experience that strikes a balance between students' attainment and growth in terms of knowledge, skills, values, character and spirituality.

Graduates will have the opportunity to expand their careers in various fields such as boatbuilding, shipbuilding, welding and fabrication (ferrous/non-ferrous), ship/project planning, naval architecture, techni-

cal design/draught person, cam programming, ship maintenance, hydraulic and pneumatics, cnc machining, steel and aluminium fabrication, woodwork and fibreglass.

For diploma programmes, UniKL-Mimet offers five programmes: the Diploma of Engineering Technology in Marine Engineering, Diploma of Engineering Technology in Electrical and Electronics (Marine), Diploma of Engineering Technology in Ship Design, Diploma of Engineering Technology in Ship Construction and Maintenance and Diploma in Maritime Management.

UniKL-Mimet also offers five bachelor programmes: the Bachelor of Engineering Technology in Marine Engineering, Naval Architecture and Shipbuilding, Offshore, Electrical and Electronics Marine and Bachelor of Maritime Operation.

There are also three postgraduate programmes: the Doctor of Philosophy (Maritime), Master of Maritime Operations and Management, and Master of Engineering Technology (Maritime).

These programmes were developed with the aim of producing skilled human capital as required by Malaysian and international shipyards/boatyards and marine engineering companies.

UniKL-Mimet also offers training, particularly for technicians to upgrade and acquire merit recognition and certification.
